ENROLL NOW IN THESE SPRING 2021 ONLINE COURSES!

Courses are open to biology undergraduates. Students will conduct informational interviews and mock interviews with life sciences industry professionals, and develop a resume, cover letter, and LinkedIn account.

BILD 82 Job/Internship Prep: Soft Skills

Tuesdays 9-9:50 A.M.

Set yourself apart from other candidates by strengthening your interview skills, with a focus on how to communicate your experience and soft skills in an engaging way.

BILD 83 Business Communications in Biology

Tuesdays 10-10:50 A.M.

Prepare yourself for internships and jobs by learning best practices in written and verbal communication in an industry setting, including how to network and develop soft skills.

BILD 92 Professional Development Topics in Biology

Tuesdays 11-11:50 A.M.

Learn about the many career options in the life sciences, the recruitment cycle, how to apply for internships and jobs, and network and develop soft skills.
