

Catalent Pharma Solutions is Hiring a Student Intern!

Description

[Catalent](#) is a leading provider of advanced technologies and outsourced services for the pharmaceutical, biotechnology and consumer health industry. [Catalent develops](#), manufactures, packages and distributes pharmaceutical and other products for customers in nearly 100 countries.

Catalent Pharma Solutions is looking to hire a [Lab Assistant \(Intern\)](#) for multiple departments, on their **San Diego, CA** team. Through guided mentorship, the Student Intern program offers students a fun and stimulating environment to gain lab experience and exposure to pharmaceutical chemistry development. Lab Assistants will have the opportunity to learn analytical chemistry techniques such as: volumetric analysis, spectroscopy, and liquid chromatography.

This is a part time, **year-round** student internship. All students are required to commit 15-20 hours per week (graduates will not be considered). Only **local** candidates will be considered.

If you are a UCSD student, you may be eligible for the UC San Diego Division of Biological Sciences Co-Op Program. Please contact Melissa Hoon at mhoon@ucsd.edu for more details regarding the Co-Op program.
