

Summer Internship Program (MaxSIP), by the Max Planck Institute for Biological Intelligence and of Biochemistry in Munich, Germany.

Description

MaxSIP provides the opportunity for highly motivated Bachelor and Master students to join one of the labs at the two participating Max Planck Institutes to conduct a 10-week summer research internship project. The fully-funded program will allow participating students to become familiar with different scientific approaches and advanced laboratory methods. The aim of our internship program is to provide excellent students with a broad range of research experiences and knowledge to promote them early on in their career.

The application platform for MaxSIP will open on January 1st and interested students are invited to submit their application by February 15th, 2022. For more information and application details, please visit www.maxsip.de.
