

2021 OUTSTANDING STUDENT AWARD

The Outstanding Student Award (OSA) was founded in Pharmaceutical Technical Development (PTD) to recognize students who excelled in disciplines related to the field of biotechnology at selected schools.

One student from UC San Diego based on their passion for biotech and high scholastic achievement will be awarded a \$2,500 award* and a guaranteed 3-month summer internship starting in May/June 2022 at our South San Francisco headquarters**.

The internship will be in one of the following areas within our PTD organization:

Analytical Operations	Cell Culture and Fermentation Development	Cell Therapy Engineering & Development
Device Development	Digital Sciences	Pharmaceutical Development
Pharmaceutical Processing & Technology Development	Pilot Plant Operations	Potency Assay Development
Protein Analytical Chemistry	Process Research & Development Business Excellence, Strategy, and Training	Purification Development

To learn more about these areas, please visit: making.gene.com

REQUIREMENTS:

- Junior-level standing or higher and pursuing an undergraduate degree
- Pursuing studies in: biology, chemistry, bioengineering, or related fields
- Demonstrated interest in biotechnology, strong critical thinking, communication, and collaboration skills
- Experience working in research labs or industry is highly desirable

DEADLINE TO APPLY:

October 15, 2021
11:55 pm PDT
